Letter of Transmittal

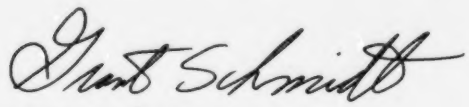
To His Honour:

Lieutenant Governor of the Province of
Saskatchewan

May It Please Your Honour:

I herewith submit for your consideration the
Annual Report of The Workers' Compensation
Board for the Calendar Year 1985.

Respectfully yours,



Minister of Labour
Regina, Saskatchewan

Report of the Board

To His Honour
The Lieutenant Governor

We are pleased to submit the fifty-sixth Annual Report of The Saskatchewan Workers' Compensation Board for the year ending December 31, 1985.

The year witnessed major amendments to The Workers' Compensation Act, 1979. These amendments, effective September, 1985, provide for a more equitable compensation system, improved benefits and administrative changes designed to improve the delivery of services to injured workers and employers.

In summary, the major amendments were as follows:

1. **Wage Ceiling** - Maximum compensable wage is increased to $48,000 from $33,000 annually.
2. **Benefit Level** - Compensation benefits will now be paid at 90% of net earnings loss as opposed to 75% of gross earnings loss.
3. **Permanent Functional Impairment** - Increases were made in the minimum and maximum, permanent functional impairment lump sum awards to $1,000 and $20,000 respectively from $500 and $15,000. Provision was made for both amounts to be adjusted in accordance with the change in the Consumer Price Index.
4. **Independence Allowances** - Discretionary, annual independence allowances are now provided in instances of severe functional impairment. The allowance is up to 10% of the maximum permanent functional impairment award in effect at time of injury.
5. **Fatality Payment** - The increase in the initial payment following a fatal injury was increased to $3,000 from $1,000.
6. **Education Allowances** - There are now improved allowances to the dependants of deceased workers to allow them the opportunity to complete post secondary education.
7. **Remarriage** - The automatic termination of spouse's allowance on remarriage and associated lump sum payment applying to remarriage and common-law relationships have been abolished.
8. **Access to Information** - Defined access to claim information for workers and employers appealing a Board decision has now been provided.

Despite these substantial legislative amendments, the Board remains in an excellent financial position and is one of the only Provinces in Canada with no unfunded liability. This has continued to ensure one of the lowest assessment rates in the country. The average assessment rate increased only modestly and remains substantially less than it was ten years ago.

The Board has maintained its practice of encouraging input by meeting with employer organizations as well as individual employers concerned with the administration of the Act. Injury prevention is central to these discussions and merit rebates in respect to 1984 operations were provided to 16,556 employers in the amount of $5,432,532. As well, grants totalling $281,800 were provided to various employer associations organized for the purpose of injury prevention and safety.

The Saskatchean Workers' Compensation Board has an international reputation as having one of the most comprehensive, equitable and best administered systems of workers' compensation. To maintain this reputation, procedures are constantly under review to provide better service to the Province's injured workers within a framework of financial affordability. In this regard, The Workers' Compensation Board looks forward to the report of the next Committee of Review which will make its recommendations in 1986.

Respectfully submitted,

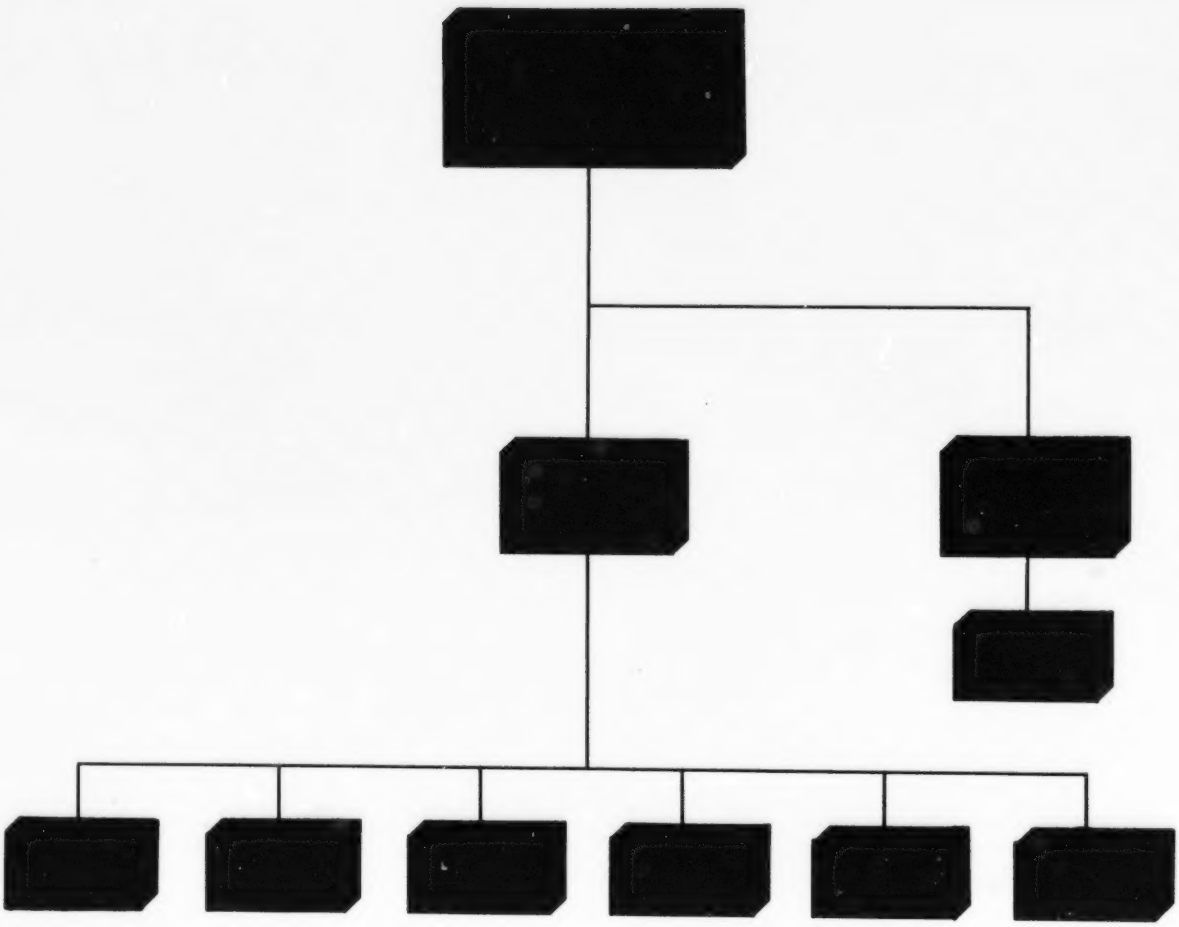
Garnet Garven
Chairman

Philip J. Leduc
Board Member

Robert McWillie
Board Member

Ernest R. Moody
Board Member

THE WORKERS' COMPENSATION BOARD
ORGANIZATIONAL CHART



Claims

The primary objective of the Claims Department is the prompt and accurate adjudication of a wide variety of injury claims.

The accomplishment of this goal requires the co-ordination of several specialized and interrelated areas.

Registry
The function of this area is the registration of new and identification of existing claims. In addition, Registry sends initial requests for reports to employers and health care practitioners.

Data Entry
Data Entry is responsible for the adjudication of claims having no time loss. The area is also responsible for computing bi-weekly compensation benefits and related injury expenses. Support services are provided where applicable.

Filing
Information is placed in the claims files and then distributed to the appropriate Claims unit for adjudication. Records are maintained on the over one million claims that have been submitted to the Board during the history of its existence.

Medical Accounts
The Medical Accounts section is responsible for the prompt payment of the thousands of medical accounts received by The Workers' Compensation Board each year.

Claims Adjudication Units
The Claims Adjudication Units are responsible for the handling of all work injuries involving time loss beyond the day of injury. Time loss claims are developed and adjudicated on the basis of information received from the worker, employer, health care professional and other appropriate parties.

Claims Representatives
Some claims require additional investigation for adjudication purposes. The Claims Representatives are responsible for acquiring this information which usually requires personal contact with the individuals involved.

Earnings Replacement Committee
Injuries that necessitate a job change resulting in a loss of earning capacity are referred to the Earnings Replacement Committee. To establish entitlement, the committee works closely with the Vocational Rehabilitation and Medical Departments.

Statistics
A total of 37,437 claims were settled during 1985, a decrease of 1.7% compared to the 38,080 settled in 1984. Settled injuries do not include claims on which no action was taken, claims disallowed and duplicate claims.

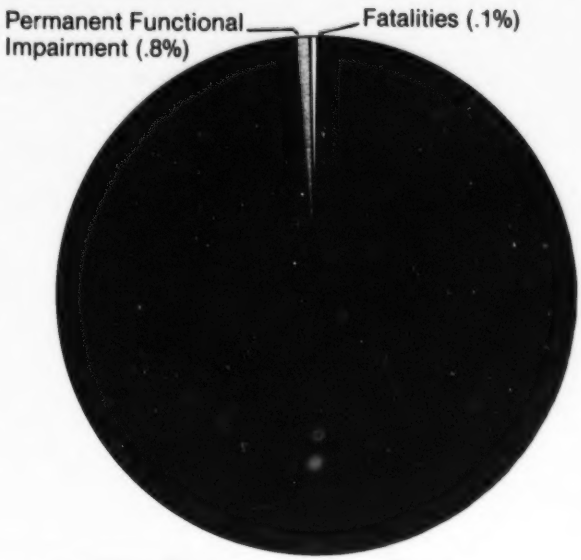
Approximately 45% of settled claims involve time loss beyond the day of injury.

Upon request, prior claims may be reviewed and further entitlement authorized if warranted. In 1985, a total of 3,515 existing claims were reopened.

The total number of permanently impaired workers and dependents of fatally injured workers in receipt of payments as of December 31st were:

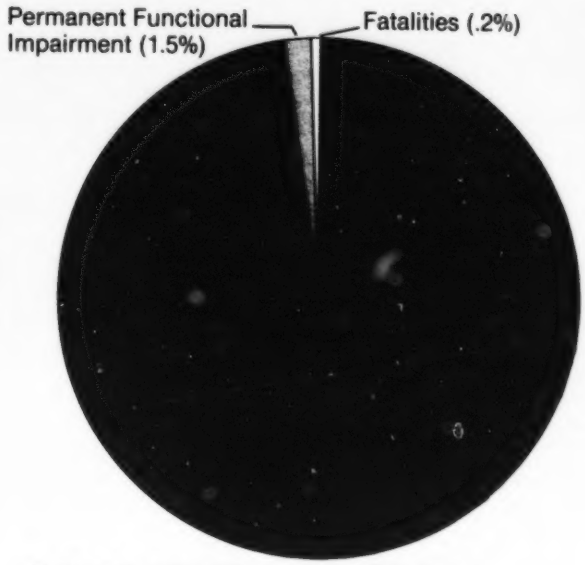
Prior Legislation	**1985**	**1984**
Disabled Workers	2,379	3,205
Spouses	405	415
Children	199	245
Other Dependants	5	5
Workers' Compensation Act, 1979		
Long Term Disability	622	323
Spouses	134	133
Other Dependants	37	25

Claims 1985 - 37,437



Type of Impairment	Number
Fatal	25
Permanent Functional Impairment	318
Temporary Impairment	16,369
No Time Loss	20,725
Total	37,437

Claims 1984 - 38,080



Type of Impairment	Number
Fatal	40
Permanent Functional Impairment	581
Temporary Impairment	15,971
No Time Loss	21,488
Total	38,080

Assessment

The main function of the Assessment Department is to collect the revenues necessary to pay for the many services provided by The Workers' Compensation Board. This goal is achieved by the collection of assessments levied against the payrolls of employers. The process involves:

Identification, Indexation and Registration
Most industries are covered by the provisions of The Workers' Compensation Act, 1979. Identification, indexation and registration assure that an accurate list of these employers is maintained at all times.

Classification
While liability is placed on all industry collectively, the industries covered by the Act are divided into various classes and sub-classes for assessment purposes. Separate records are kept of assessment received and injury costs for each industry classification. Each class is in essence a mutual insurance association of the employers comprising the class.

Assessment
All employers covered by the Act are required by the last day of February to file a return showing the actual wages paid during the preceding year together with an estimate of the payroll for the current year. Assessment is made on the estimated payroll subject to adjustment when actual payroll is submitted the following year.

Assessment rates are established after considering cost experience, the financial position of each industry classification, the reserves required for outstanding claims and pensions, and the cost of administration of the Act. The Board met with 26 employer groups and associations in connection with setting 1986 provisional assessment rates.

In response to industry requests, the Industry Schedule was changed to make individual assessment rates more accurately reflect actual injury costs. The changes provide for additional rates within each industry code. The new structure was partially implemented on January 1, 1986 and will be phased in over a period of years.

Receivables and Collection
The assessment of payroll record generates accounts receivable which are payable in two installments: April 1 and September 1. Every effort is made to ensure prompt payment thereby keeping late payment penalties at a minimum. In 1985 uncollected assessment represented only 0.1% of receivables.

Audit
The auditing process provides verification of payroll and other employer records, expedites collections, and informs employers of changes in the workers' compensation system. During the year, 1,747 employers were audited.

Merit Rebate Program
To encourage safety in the workplace and reduce injury costs, merit rebates of up to 25% of the previous year's assessment are available to employers with excellent injury cost experience.

Statistics

Year	Assessment Ceiling	No. of Employer Accounts Processed	Assessable Payroll	Average Rate of Assessment
1976	14,000	23,694	1,901,145,244	2.21
1977	16,000	25,092	2,259,061,528	2.16
1978	18,000	26,019	2,778,331,505	1.92
1979	20,000	27,444	3,180,479,750	1.70
1980	22,000	28,822	3,629,755,085	1.42
1981	24,000	29,763	4,171,506,376	1.31
1982	26,000	30,236	4,509,447,272	1.22
1983	29.000	31,406	4,911,391,895	1.27
1984	33,000	32,199	5,313,546,946	1.27
1985	33,000	32,743	5,527,391,459*	1.37*

* Provisional

Medical

The Medical Department consists of six physicians plus clerical personnel. All of the physicians have considerable experience in the practice of medicine prior to being employed with the Board. They were selected for their training, experience and judgment. Skills and knowledge peculiar to workers' compensation are developed on the job. This involves continuous review of medical literature as well as professional upgrading.

During 1985, the Medical Department was strengthened by the addition of an orthopedic surgeon with many years of experience.

Medical Officers act as consultants to the non-medical personnel: particularly the Claims Department, the Vocational Rehabilitation Department, the Earnings Replacement Unit, the Appeals Committee, and the Board Members. Only a small fraction of all claims are referred to the Medical Department, however, the majority of these are complicated.

Medical Officers provide opinions regarding the relationship between injury and work activity. This is usually not necessary for claims involving specific acute trauma, however, complications of trauma, industrial disease, and conditions arising out of and in the course of employment are less easily defined and require considerable medical investigation and expertise.

The increased emphasis on vocational rehabilitation, has made it necessary to learn much more about injured workers including other health problems, physical stature, educational background and work experience. Medical Officers are frequently called upon to define the nature and degree of work limitations resulting from work injury.

The Medical Officers are responsible for monitoring the medical treatment received by injured workers in order to ensure appropriate and timely treatment. This involves communication with attending physicians, arranging consultations and when indicated, arranging for physical rehabilitation. Inherent in this function is the maintenance of a good working relationship between the Workers' Compensation Board and the medical profession.

Assessment of permanent functional impairment resulting from work injury is the responsibility of the Medical Department. The majority of injured workers with permanent impairment are examined by the Medical Officers. In some situations, because of the nature of the injury or complications due to other health problems, panels of recognized medical experts are used to assess permanent functional impairment.

The Medical Department plays a significant role in monitoring the day to day performance of the Physical Rehabilitation Program and is, currently, involved in the planning of the new Wascana Rehabilitation Centre.

Chiropractic Consultant

A significant number of claims submitted to The Workers' Compensation Board involve chiropractic care. To ensure promptness and accuracy in the processing of these claims, the Board uses the services of a chiropractic consultant.

The consultant, who is in private practice, provides expert advice to appropriate Board personnel regarding the necessity, type, effectiveness and length of chiropractic treatment.

Chiropractors are contacted as required by the consultant and general information regarding duties, responsibilities and rights under the legislation are explained.

The consultant is also involved in other activities designed to maintain and improve upon the excellent communication that the Board has with the province's chiropractors.

During 1985, the chiropractic consultant dealt with over 300 claims.

Appeals

To strengthen the appeal system and ensure fair and prompt adjudication, an internal Appeals Committee was established this year. This independent body is comprised of experienced adjudicators well versed in compensation matters.

If a department of the Board is unable to determine an issue in favour of an individual, a full written explanation for this decision is provided. Every effort is made to ensure a clear understanding of the basis of the decision.

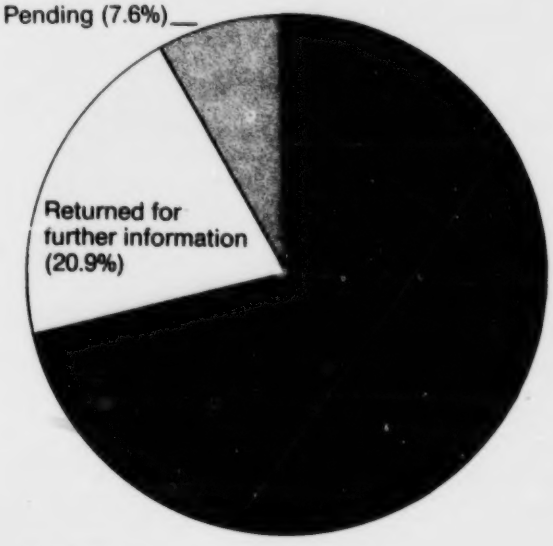
However, if an individual believes the decision reached was incorrect, an appeal can be made to the Appeals Committee. A recent legislative amendment allows an individual access to information received by the Board, with certain defined restrictions, on or after September 1, 1985 for the purpose of appeal.

The Appeals Committee considered 606 cases in 1985 and held informal hearings in 25 of these. On average, decisions of the Committee were provided within fifteen days.

Appeals against decisions of the Appeals Committee may be made to the Members of the Board. During 1985, the Members of the Board considered 151 appeals.

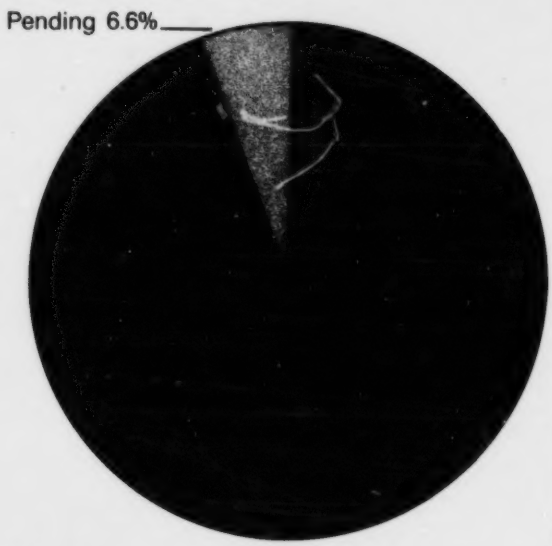
If an individual believes an appeal is denied on the basis of incomplete or inaccurate medical information, the case may be referred to a Medical Review Panel. A certificate is required from a physician specifying that there is a bona fide medical question to be resolved. The decision of the Medical Review Panel is binding on both the appellant and the Board with regard to any medical question. During the year, 9 workers elected to be examined by a Medical Review Panel.

Appeals 1985 - 636



Accepted	93
Denied	362
Returned for further Information	133
Pending	48
Total	636*

Board Appeals 1985 - 151



Accepted	53
Rejected	88
Pending	10
Total	151

* Some appeals appear in more than one category.

Physical Rehabilitation

Rehabilitation is a key function of the Workers' Compensation Board. The process of physical rehabilitation commences immediately after injury with first aid at the job site and transportation to initial medical attention. It continues through the stage of medical management, convalescence, and when necessary, remedial medical treatment. The objectives of physical rehabilitation are to minimize the effects of injury and promote recovery in the shortest possible time, with successful vocational rehabilitation as the final goal.

In the majority of cases, physical rehabilitation is achieved in the worker's community under the supervision of the attending physician. According to Canadian experience, however, at least 6% of all time loss injuries require specialized physical rehabilitation facilities in order to achieve maximum recovery.

The Saskatchewan Workers' Compensation Board, through an arrangement with the Wascana Hospital in Regina, provides a comprehensive physical rehabilitation program to injuried workers. This program is co-ordinated by an experienced physician who is part of a treatment team consisting of physiotherapists, remedial gymnasts, occupational therapists, work unit personnel, a psychologist, a clinic nurse, Workers' Compensation Board representatives, and local medical consultants.

Injured workers are provided with a full time, five day per week, out-patient program. Treatment is prescribed according to the needs of the individual and modified according to the response to treatment. Prior to discharge, most of the workers receive some work conditioning while those who will be left with permanent restrictions are given a work assessment.

Treatment times vary from one week to several months with the average stay in the range from three to four weeks.

A Program Co-ordinator directs the admissions to the Program and the payment of compensation and expenses while on Program.

Vocational rehabilitation is an integral part of physical rehabilitation. This often commences shortly after the worker is injured, prior to admission to the Physical Rehabilitation Program. A Vocational Rehabilitation Counsellor is attached to the Physical Rehabilitation Program to ensure that the Program is directed at the eventual vocational rehabilitation of the injured worker.

The science of physical rehabilitation has made major advances, including the use of new modalities of treatment and development of expertise in the control and management of chronic pain. With these advances have come an increased realization that injured workers must not only be physically rehabilitated, but must also be psychologically rehabilitated as well in order to achieve the best possible vocational rehabilitation.

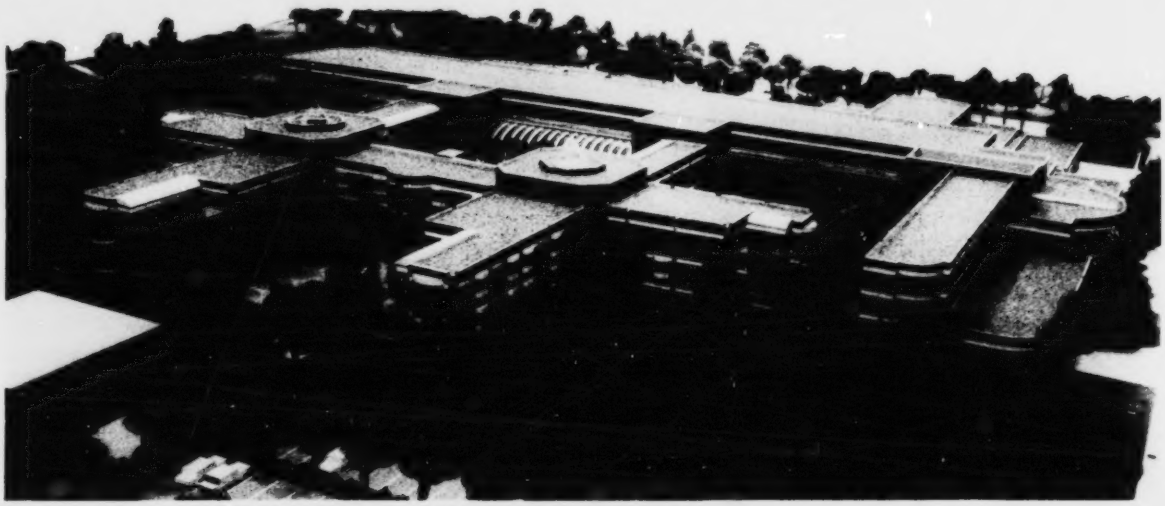
Wascana Rehabilitation Centre

For the past twenty-five years, physical rehabilitation services for injured workers have been provided through Wascana Hospital in Regina. Over these years, improvements have been made to ensure a continued high quality of treatment.

In keeping with the goal of providing the best available treatment services, The Workers' Compensation Board is participating in a new and expanded rehabilitation faciltiy. While the project will not be fully completed until 1991, new facilities for injured workers will be available by 1988. This expansion will more than double the existing treatment space and will meet the future demands of Saskatchewan's injured workers.

When completed, the Wascana Rehabilitation Centre will also provide specialized treatment services to disabled veterans and other disabled citizens.

The Workers' Compensation Board will contribute approximately 25% of the total cost of the project.



Vocational Rehabilitation

The mandate of the Vocational Rehabilitation Department is to assist injured workers in returning to employment following injury. The goal is to eliminate or minimize the effect of injury on the worker's earning capacity.

The Workers' Compensation Board places a great deal of emphasis on the successful vocational rehabilitation of injured workers. Benefits of a successful return to employment accrues not only to injured workers and their families but to industry, the local community and society as a whole. To promote a successful return to employment, the Vocational Rehabilitation Department tailors its services to the unique physical and intellectual capabilities of the injured worker.

If required, assistance is provided to acquire the training necessary to successfully return to the work force.

In returning an injured worker to productive employment some of the following services may be provided:

Counselling
Instruction regarding job search techniques, selecting the appropriate type of employment and help in adjusting to a disability are some of the services provided.

Vocational Assessment
Involves the evaluation of the worker's physical and intellectual abilities, aptitudes and interests to assist in deciding on an appropriate occupation.

Job Placement
Financial assistance, in the form of full compensation benefits, may be provided to an injured worker actively engaged in directed job search activities.

Work Assessment
On the job assessment may be arranged to determine if the worker has the capability of performing a specific type of occupation.

Training on the Job
Assistance is supplied to employers who provide workers with an opportunity to train in a particular occupation and who are willing to offer permanent employment once training is completed.

Academic and Technical Upgrading
Financial aid may be provided to an injured worker to help in acquiring the education necessary to obtain employment.

Follow Up Service
Continued contact is provided to the injured worker and other concerned parties to ensure that suitable employment has been obtained and to provide payment of temporary wage loss if applicable. Once the worker's employment situation has been stabilized, any continuing entitlement to wage loss is referred to the Earnings Replacement Committee.

To aid dependent spouses of deceased workers in entering the labour foce, the Vocational Rehabilitation Department provides the same services available to injured workers.

Continued counselling and assistance is also provided to injured workers prevented from obtaining employment due to severity of injury.

To fully implement its programs, the Vocational Rehabilitation Department receives the help of many employers, unions, agencies and individuals. Their assistance is greatly appreciated.

Statistics

Vocational Rehabilitation Referrals	2,679*
Successful Re-employment **	815
Training Programs ***	686
Job Search	767
Temporary Wage Loss	401
Related Rehabilitation Services ****	949

* Total does not equal sum of categories as some cases apply to several categories.

** Includes those returning to regular or alternate duties with pre-accident or new employers.

*** Includes academic and technical upgrading as well as work assessments and training on the job.

**** Includes relocation costs, personal care allowances, allowance for travelling for job search, modification to work sites, counselling services for dependants, reviews for commutation of pension.

Staff

The Board, at December 31, 1984, had a total of 250 employees, 229 at head office in Regina and 21 at the branch office in Saskatoon.

Mr. Garnet Garvin was appointed Chairman of the Workers' Compensation Board effective September 23, 1985.

The Board is grateful to its staff for the conscientious manner in which they have administered the Act, particularly given the significant amendments which took effect September, 1985.

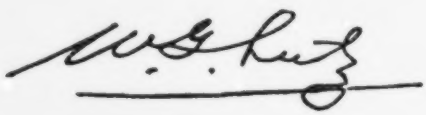
T05-02	Commercial, chartered and pilot training flying; repair of aeroplanes
T05-03	Aerial application helicopters and incidental repair
U01	Telecommunications
U03	Generation and transmission of electric systems

AUDITOR'S REPORT

To the Members of the Legislative Assembly
of Saskatchewan

I have examined the statement of financial position of The Workers' Compensation Board (Saskatchewan) as at December 31, 1985 and the injury fund's and annuity fund's statements of operations and fund balance and the statement of changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at December 31, 1985 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.



Regina, Saskatchewan,
March 7, 1986.

W.G. Lutz, F.C.A.,
Provincial Auditor.

Increase (decrease) in long-term investments	(6,345,370)	19,795,215
Total resources applied	$11,578,345	$ 3,590,459

(See accompanying notes to the financial statements)

THE WORKERS' COMPENSATION BOARD (SASKATCHEWAN)

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 1985

1. **Significant Accounting Policies**

The Board's accounting policies are in accordance with generally accepted accounting principles. The following are considered to be significant:

a) **Investments**

(i) Bonds and debentures are recorded at cost at the time of purchase with any discount or premium amortized on a straight-line basis over the period remaining to the maturity date of the investment. Gains or losses on the sale of long-term investments prior to maturity are taken into or charged against revenue in the year of transaction.

(ii) Equities are accounted for on the "fair value" method. This method values equities on a five year moving average of market values thereby allowing for a gradual movement toward current quoted market values. American equities are translated into Canadian dollars at the year-end exchange rate, and translation gains or losses on these equities are included in investment revenue for the year.

(iii) Mortgages are accounted for on the same basis as bonds and debentures held as long-term investments.

b) **Depreciation**

Depreciation is provided on a straight-line basis commencing in the year in which the assets are placed in service. Office furnishings, building and computer equipment are depreciated at the rate of 10%, 2½%, and 20% per annum respectively and lease hold improvements over the term of the lease.

c) **Assessment Revenue**

At the beginning of each year, an assessment is levied on employers by applying their industry assessment rate to their estimated payrolls. The assessment levy is due and payable by installments within the current year. At year-end, assessment income is adjusted based on a review of the employers' actual payrolls.

d) **Merit Rebate**

To encourage safety practices and reduce injury costs the Board introduced a merit plan effective January 1, 1980. Employers who maintain an active assessment account for the latest three consecutive calendar years of not less than $15 in each year, and with claims cost under 60% of the assessment in the last year as well as in total over the last three years, will be eligible for a merit rebate if such exceeds $5 and the account is currently assessed and in good standing. Rebates are payable to a maximum of 25% of the levy in the last year. (Note 10).

e) **Staff Superannuation**

Superannuation costs for current services are being charged to operations on a current basis.

An actuarial review of the staff superannuation fund as at December 31, 1982 indicated an unfunded actuarial liability of $1,710,188. The Board has approved the actuary's recommendation of contributing at the rate of 2 to 1 of the required employee contributions effective January 1, 1983. The actuary estimates this ratio will retire the unfunded actuarial liability and provide for benefits to be earned by the members for service after December 31, 1982, over the anticipated working life of the contributors.

A preliminary actuarial review of the staff superannuation fund as at December 31, 1985 indicates an unfunded actuarial liability of approximately $815,894.

2. **Status of Board**

The Workers' Compensation Board (Saskatchewan) was established in 1930 pursuant to the provisions of The Workmen's Compensation Act, 1929 and is continued under The Workers' Compensation Act, 1979.

3. **Short-Term Investments**

	1985	1984
Government of Canada	$ 2,691,572	$ 798,755
Other corporate investments	30,268,990	20,366,713
Long-term investments maturing within one year	7,637,583	1,806,063
	$40,598,145	$22,971,531

Short-term investments are held to meet current obligations such as claims requiring immediate settlement. Short-term investments have been stated at cost which approximates market.

4. **Investments**

	1985	Market Value	1984	Market Value
Bonds and debentures at par	$232,815,274		$234,420,340	
Less: unamortized discounts or premiums	9,445,792		10,098,387	
Amortized cost	223,369,482	$237,261,623	224,321,953	$212,527,581
Equities	7,588,272	9,875,828	11,897,098	12,429,558
Mortgages	29,760,819	—	30,844,892	—
	$260,718,573	$247,137,451	$267,063,943	$224,957,139

Since mortgages are not publicly traded, their market value at year-end has not been determined.

5. **Land, Building, Office Furnishings and Computer Equipment**

	Cost	Accumulated Depreciation	Net Book Value 1985	Net Book Value 1984
Land	$ 162,195	$ —	$ 162,195	$ 162,195
Building	2,385,160	976,682	1,408,478	1,383,439
Office furnishings	438,581	296,527	142,054	108,230
Computer equipment	127,658	25,531	102,127	—
Leasehold improvements	21,860	—	21,860	—
	$3,135,454	$1,298,740	$1,836,714	$1,653,864

6. **Accounts Payable**

Accounts payable include:

	1985	1984
Estimated merit rebates	$6,548,299	$5,432,523
Occupational Health and Safety	—	365,118
Assessment refunds	456,683	529,785
Employee benefits liability	702,336	623,817
Other payables	819,258	179,134
	$8,526,576	$7,130,377

7. **Compensation Payable**

Compensation Payable includes the following:

- the estimated cost to the Board of reported claims.
- the estimated cost of claims yet to be reported based on the claims settlement experience and
- the estimated amount required to meet the future payments to claimants and other recipients.

The estimated costs of $292,658,461 included in the Board's total Compensation Payable are determined by a yearly actuarial evaluation. The change in Compensation Payable each year is recorded as part of Compensation Expenditure (Note 11).

8. **Appropriated Fund Balance**

	Disaster Reserve	Second Injury Reserve	Rehabilitation Reserve	Total
Balance January 1, 1984	$9,993,906	$2,376,879	$7,880,737	$20,251,522
Appropriated in 1984	(5,171,040)	—	897,616	(4,273,424)
Balance December 31, 1984	4,822,866	2,376,879	8,778,353	15,978,098
Appropriated in 1985	2,789,918	—	1,184,100	3,974,018
Balance December 31, 1985	$7,612,784	$2,376,879	$9,962,453	$19,952,116

The reserves have been established by the Board within the provisions of The Workers' Compensation Act, 1979 to avoid undue and unfair burdens to the employers in future years with the payments to be made in those years in respect of costs and injuries that have previously occurred.

9. **Annuity Fund**

The Board sets aside amounts equal to ten percent of compensation paid to workers injured after December 31, 1979 who have been on compensation for twenty-four consecutive months to provide an annuity for the worker at age sixty-five. These amounts are charged to the Injury Fund Operations as Compensation, Medical Aid and Rehabilitation. The Board does not maintain a segregated investment portfolio for this fund and therefore investment income is allocated to this fund based on the average rate of return of the investments and the balance of the annuity fund.

10. **Assessment Revenue**

The assessment revenue reported is net of the following:

	1985	1984
Merit rebate	$(6,548,299)	$(5,432,523)
Government of Canada Assessment	$ 1,833,644	$ 1,664,315

11. **Compensation**

Compensation expenditure includes the following:

	1985	1984
Compensation payments	$37,837,434	$35,425,368
Pension payments	26,570,351	28,816,816
Change in compensation payable	13,136,946	19,432,910
	$77,544,731	$83,675,094

12. Rehabilitation Expense

The Board is participating in the construction of The Wascana Rehabilitation Hospital to better assist injured workers in returning to work and in lessening or removing any handicap resulting from a compensable injury. During 1985 a payment of $250,000 was made toward construction of the hospital and consulting fees of $81,295 was paid relating to this project. The Rehabilitation Reserve has been reduced by these payments.

13. Related Party Transactions

Included in these financial statements are expense amounts resulting from routine operating transactions conducted at prevailing market prices with various Saskatchewan Crown controlled departments, agencies and corporations with which the Board is related.

Account balances resulting from these transactions are included in the statement of financial position and are settled on normal trade terms.

Schedule 1

THE WORKERS' COMPENSATION BOARD (SASKATCHEWAN)

SCHEDULE OF ADMINISTRATION EXPENSES

YEAR ENDED DECEMBER 31, 1985

	1985	1984
Salaries	$ 6,858,568	$ 6,248,555
Employee benefits	905,916	838,665
Travel and automobile expense	237,601	188,771
Professional services	216,268	231,359
Office machines and equipment	54,831	75,687
Printing, stationery and office supplies	343,129	263,311
